**NOTICE OF REQUEST FOR
APPROVAL OF A PRETREATMENT
PROGRAM MODIFICATION**

In accordance with the provisions of Chapter 62-625, Florida Administrative Code (F.A.C.), Reedy Creek Improvement District (Utility) has developed and submitted for approval by the Florida Department of Environmental Protection (DEP), a pretreatment program modification for its wastewater facility (WWF), consisting of revisions to the Utility's sewer use ordinance. DEP has made a preliminary determination that this pretreatment program modification meets the requirements of Rule 62-625.540, F.A.C. The requirements found in those rules are designed to assure the pretreatment program will: (a) prevent the introduction of pollutants into WWFs which will interfere with their operation, including the use or disposal of residuals; (b) prevent the introduction of pollutant into WWFs which will pass through the treatment works or be otherwise incompatible; and (c) improve opportunities to recycle and reclaim municipal and industrial wastewaters and residuals.

The Utility's proposed pretreatment program approval submission is available for public inspection only for DEP records review online at:

Interested persons are encouraged to submit written comments on the submission. All written comments submitted in a timely manner will be considered by DEP in the decision on whether or not to approve the submission. In accordance with paragraph 62-625.510(2)(c), F.A.C., this public notice comment period will end thirty (30) days from the date of publication.
